

✓ **Ditch the Clipboard!**

✓ **Modern Visitor Experience**

✓ **Enhance Security**

✓ **Enforce Compliance**

The future of visitor management is here. From simplifying prescreening to automating compliance reporting, Symmetry™ GUEST is revolutionizing visitor management for even the busiest organizations, all over the world.

Is your visitor management process stuck in the past – relying on paper sign-in logs, clipboards, and pens? This manual, outdated process leads to long lobby lines, frustrated guests, and stressed security teams, while often producing illegible and inaccurate records. Hardly secure, hardly modern, and hardly the way an advanced organization wants to be perceived.

Symmetry™ GUEST brings visitor management into the 21st century.

No more paper logs, no more lines:

Whenever someone in your organization invites a visitor to your site with a calendar invitation via Outlook or Gmail, Symmetry preregisters the visitor with an automated email containing all required prescreening details and forwards a wallet credential or QR code for check-in. At arrival, Symmetry GUEST sends the host an instant notification, speeding visitor entry and making them feel welcome. It's seamless.

And visitor arrival is only the starting point:

Symmetry GUEST goes beyond streamlining entry. It automates every process associated with the visitor lifecycle, including creating audit trails that can improve everything from risk management to investigation to compliance reporting. Symmetry GUEST also aids in enforcing security, non-disclosure, and visitor policies, along with watch list-based entrance-refusal instructions.

Visitor Experience

Give your visitors the experience they'll appreciate more:

- Fast check-in times with minimal waiting
- A professional, modern, and forward-thinking impression

Security Tools

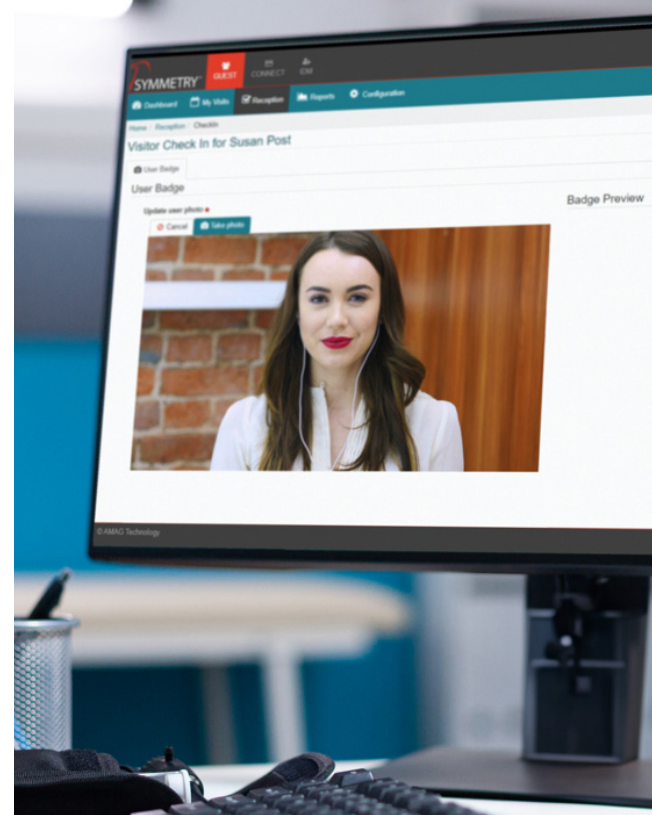

Give your security team the tools they need to do their jobs better:

- **Streamlined visitor flow** – Symmetry GUEST manages multiple visitors simultaneously, reducing crowd control challenges
- **Reduced errors** – Prescreening and credential verification are automated ahead of each visit
- **Automatic host notifications** – No need for phone calls; hosts are alerted immediately upon guest check-in
- **Real-time insights** – Enjoy instant verification and detailed reporting for better oversight
- **User-friendly design** – Simplifies processes for both security teams and visitors
- **Enhanced building safety** – Ensures a secure environment for all occupants

Advancements

Give your organization the most advanced security, management, and efficiency:

- **Quick, hassle-free installation**
- **Accessible on any device** – desktop, tablet, or mobile
- **Intuitive design** – easy for all staff to use
- **Automated notifications** through Outlook and Gmail
- **Flexible integration options** – works with Symmetry Access Control or as a standalone system
- **Compatible with standard peripherals**
- **Simple licensing** – one license covers your entire organization
- **Comprehensive and secure** – delivering a seamless, compliant solution

“ We recently implemented AMAG Technology's Symmetry GUEST visitor management system at our Omaha, Norcross and Limerick locations, and the transformation has been remarkable. Symmetry GUEST has exceeded our expectations, and I would not hesitate to recommend it to any organization looking to elevate their visitor management process. ”

– Steven Litherland,
*Physical Security Operations Manager
(Global) for ACI Worldwide*

In today's fast-paced business environment, electronic visitor management isn't a luxury. It's a necessity. Symmetry GUEST is the solution your organization needs to reach new levels of security and efficiency. So say goodbye to the clipboard, and contact us for a demonstration today.
