

Your iPhone and Apple Watch are now your employee badge

EMPLOYEE BADGE IN APPLE WALLET.
NOW AVAILABLE FROM AMAG TECHNOLOGY™

Employee badge in Apple Wallet™ allows your organization's employees to securely gain access with a simple tap of their iPhone or Apple Watch.

SET UP IS EASY

The Symmetry™ Wallet Platform allows for the secure provisioning of NFC-based Apple Wallet credentials. It seamlessly integrates into AMAG Technology Symmetry Access Control software, controllers and reader technology allowing customers to add mobile credentials in addition to their physical cards.

The security team uses the Symmetry Wallet Platform to assign employee badges in Apple Wallet. The user receives an email with a link to securely authenticate their identity and add the badge on iPhone or Apple Watch without downloading another mobile app.

WHY EMPLOYEE BADGE IN APPLE WALLET

Efficiency: Say goodbye to physical badge printing. Save time with quick provisioning and remote badge distribution right to your staff's Apple devices.

Flexibility: Transition from physical to mobile credentials seamlessly. Symmetry Access Control and Symmetry Blue readers support both types of credentials simultaneously.

Seamless: With Express Mode, just hold the device near the reader without unlocking or waking it. Power Reserve ensures uninterrupted access when the iPhone or Apple Watch needs a charge.

Security: Badges in Apple Wallet take full advantage of the privacy and security features built into iPhone and Apple Watch. They are stored on the device, which means Apple doesn't see the places your employees access, so data is private and secure.

ACCESS WITH JUST YOUR IPHONE

Embrace the future of access control with employee badge in Apple Wallet. Save provisioning time, reduce waste by eliminating plastic cards, and experience safe and advanced technology to unlock your corporate spaces with your Apple devices. It's simple, secure, and convenient.
