

ENVIRONMENTAL POLICY

EP01 Issue 12

AMAG Technology Parent Limited, Tewkesbury, UK

AMAG Technology is one of the foremost innovators and suppliers within the Security Industry, providing integrated security solutions to its customers throughout the world.

To support this position, the AMAG leadership team is committed to minimising overall environmental impact, limiting ground & air pollution, conserving energy and maximising the reduction, re-use and recycling of materials, the latter including a Take Back* mechanism for products.

As part of this commitment, the leadership team is therefore collectively responsible for the effectiveness and continual improvement of the installed Environmental Management System (EMS), and ensuring it remains consistent with the requirements of the international environmental management standard ISO14001.

The leadership team also monitors and evaluates the various internal and external factors that impact the EMS, and how these and those of other interested parties are accommodated, including applicable regulatory & other requirements.

Finally, environmental Objectives, Targets and Programmes are established to support this Policy, with due consideration to the context of the business' operation, its strategic direction and its customers' ongoing needs & expectations.

For AMAG Technology Parent Limited, Tewkesbury

Peter Romanov
EVP Of Global Operations and General Manager - UK
